

Human Informed Consent Form

Instructions to the Student Researcher(s): An informed consent/assent/permission form should be developed in consultation with the Adult Sponsor, Direct Supervisor or Qualified Scientist.

This form is used to provide information to the research participant (or parent/guardian) and to document written informed consent, minor assent, and/or parental permission.

- When written documentation is required, the researcher keeps the original, signed form.
- Students may use this sample form or may copy ALL elements of it into a new document.

If the form is serving to document parental permission, a copy of any survey or questionnaire must be attached.

Student Researcher(s): _____

Title of Project: _____

I am asking for your voluntary participation in my science fair project. Please read the following information about the project. If you would like to participate, please sign in the appropriate area below.

Purpose of the project:

To generate a synthetic dataset of glioma brain MRI scans using a conditional diffusion model which will be used to enhance the performance in downstream labeling tasks.

If you participate, you will be asked to:

Review a small, random selection of these synthetic MRIs, assessing whether the brain structures appear natural and if the labeled regions correctly match the provided classifications.

Time required for participation:

Potential Risks of Study:

Anatomically inaccurate brain MR images could be generated, allowing downstream models to learn inappropriate representations of the brain, therefore harming results.

Benefits:

Your feedback will help determine if the synthetic dataset is representative of glioma real brain MRI, ensuring that use in downstream tasks is appropriate and safe. If it is high-fidelity, the dataset will allow models to better identify tumors, enhancing the efficiency of radiological analysis.

How confidentiality will be maintained:

Your responses will never be published with your name attached to them. Your identity will not be revealed unless you explicitly allow me to mention you on my board in the acknowledgements section.

If you have any questions about this study, feel free to contact:

Adult Sponsor/QS/DS: _____ Phone/email: _____

Voluntary Participation:

Participation in this study is completely voluntary. If you decide not to participate there will not be negative consequences. Please be aware that if you decide to participate, you may stop participating at any time and you may decide not to answer any specific question.

By signing this form I am attesting that I have read and understand the information above and I freely give my consent/ assent to participate or permission for my child to participate.

Adult Informed Consent or Minor Assent

Date Reviewed & Signed: _____
